

Dear Friends and Donors,

It is my privilege to share Nimol's story with you. Her journey reminds us that when women are given hope and opportunity, lives can be transformed.

THE STORY OF NIMOL (GIVEN NAME)

"I used to believe that my life would always be defined by hardship and limited choices. Today, I can finally see hope and a new future for myself."

My life began to change when I met the outreach team from Precious Women Organization at the karaoke beer garden in March 2026, where I was working after moving from a province south of Cambodia. The Precious Women team introduced me to the programs and services available, including women empowerment training, vocational training, and counselling support. Through their encouragement and support, I decided to join the life skills and barista training programs. These opportunities helped me gain valuable skills, rebuild my confidence, and discover hope.

Today, I have a renewed sense of purpose. I am continuing to improve my skills while working toward stable employment, and one day I hope to start my own small business. I am deeply grateful for the opportunities and support I have received. They have reminded me that my past does not determine my future, and that with encouragement and opportunity, positive change is possible. My story is a reminder that when women are given the chance to learn, grow, and believe in themselves, they can overcome adversity and build a brighter future for themselves and their families.

"The opportunity to learn new skills has given me hope, confidence, and the courage to pursue a better future."

SUPPORT WOMEN THROUGH OUR HANDY CRAFT COLLECTION
